

Questionnaire to be completed by the Client and sent to the Seller's Commercial Service for the attribution of the guarantee on the products. Only questionnaires duly completed and signed by the Client will be accepted.

1. CLIENT DATA:

SOCIAL DENOMINATION:

ACTIVITY:

CONTACT INFORMATION:

Address:

Phoneo:

Fax:

Email:

Contact people:

2. BUILDING CHARACTERISTICS

PLANNED OPERATIONS

- Construction of an entire building.
- Extension of an existing building.
- Extension o fan existing construction initially building up with materials supplied by the Seller (in this case, specify the references of the order (s) in question: date, order number, delivered quality and delivered quantity).

DESTINATION AND USES OF THE BUILDING

- Building
 - For housing uses.
 - Industrial.
 - Agricultural.
 - Others (specify another destination)

- Activity
 - Specific nature of the activity to be make inside the building.
 - Presence and/or use and/or storage of chemical products.
 - Presence and/or use and/or storage of products in fermentation.
 - Presence of animals inside the building.

- Emission of gases, vapours and smoke
 - Type of heating.
 - Means provided for the evacuation of vapours and smoke (chimney extractor, natural ventilation, forced ventilation, others).

DESTINATION OF THE PRODUCTS WHOSE ORDER THE CLIENT WISHES TO MAKE:

- Roof
 - Name of the product.....
 - Thickness.....
 - Coating.....
 - Surface.....
 - Slope.....

- Moral coating
 - Name of the product.....
 - Thickness.....
 - Coating.....
 - Surface.....
 - Slope.....

3. BUILDING ENVIRONMENT

GEOGRAPHICAL LOCATION OF THE BUILDING

- Implementation of the work under construction

Company name of the builder.....
.....

○ Data

- Location of the construction.....
.....
- Phone.....
- Fax.....
- Email.....
- Construction manager's phone.....

• Localization of the building

- In a rural zone.
- Close to buildings where animals are kept (specify implantation distance).
- Close to fermentation product storage buildings (specify implantation distance).
- Close to smoke generators from fuel- oil heating (specify implantation distance).
Close to urban centers and/or major industrial environment or several factories that emit gases and/or smoke and/or vapours (specify the localization specify and the type of gas, smoke our vapor).
- Close to urban centers and/or an industrial environment with the presence, in particular, of refineries, incineration plants, distilleries, cement plants, paper mills, laboratories (specify implantation distance).
- Near the Edge of the sea (outside of the building located less than 3 km from the coast with no possibility of direct attack by seawater).
- Near the seafront (exterior of the building located less than 3 km from the coast with partial or momentary attack by seawater and/or direct action of sea splashes on the building).
- In the marine environment (exterior of the building located between 3 and 20 km from the coast).
- In mixed environment (combination of marine atmosphere and normal or severe urban and industrial atmosphere).

ALTITUDE

- Over a 900 meters.
- Under a 900 meters.

SUNSTROKE

- Important.
- Overage.
- Low.

FREQUENCY OF RAINFALL

- Important.
- Overage.
- Low.

FREQUENCY OF SNOW PRECIPITATION

- Important.
- Overage.
- Low.

4. OTHER MATERIALS USED

- Roof and/ or coating mural made entirely with the products.
- Uses of other materials such as cement, concrete bricks.
 - As roof (specify the nature of the materials and the surface covered).
 - As coating (specify the nature of the materials and the surface covered).
